Toledo, OH 43624-1681

Re: **Your Mediation Services**

Dear Judge Knepper:

This letter is being written to give my wholehearted support and recommendation for your mediation services. You were kind enough to mediate two medical malpractice cases on behalf of my office, and the defendants, in November and December 2004. I thought that your approach to the mediation and your hard work in getting the sides together, even in the days after our meeting was most effective, and resulted in settlements in both cases. It is my intention to continue to seek to use your services in the future, should you be available. I would recommend you as a mediator to any attorney seeking to resolve medical malpractice or other types of litigation claims. I look forward to a future working relationship.

Sincerely,

Gary W. Osborne
